LOEWE is committed to create luxury products, with sharp design, passionate creation and precision execution, always with a responsible approach to the nature, and abiding by moral and ethical values in the management of the company and all along the supply chain.

We integrate Quality and Sustainability in our business model as a common ground of our values: excellence, innovation, passion and integrity, all along the lifecycle of our products, from the design till the end of life, going through the sourcing of raw materials, suppliers, production, warehouse, shipping, retail, use and end of life.

Our strategy is to incorporate sustainability as a source of new opportunities that add more value to our products, being more efficient at using resources. That means developing a corporate culture of sustainability that will be an advantage for the company in the long term, improving continuously our performance overall.

To achieve that goal, LOEWE ensures the following commitments:
- Comply with applicable legal requirements and others to which LOEWE subscribes.
- Continuous improvement of the environmental performance of all our products.
- Prevent pollution, protect biodiversity, reduce waste, and minimize the consumption of resources.
- Ensure the implementation of the highest environment and social standards throughout the supply chains and the use of sustainable materials.
- Reduce the CO2 emissions relating to our energy consumption.
- Engage, train and aware all the employees, suppliers and subcontractors into our sustainability commitments.
- Develop our operations under an ethical and responsible perspective and fair trade.

These commitments are the framework to establish and review our objectives and targets, aligned to our historical commitment to protecting natural resources and human rights.

LOEWE, Past, Present & Future
